My village is situated on the banks of purna river. This river is an integral part of our lives. My childhood is that when I was studying in primary school, 'Poorna' used to fly for twelve months. Even in the summer, her small stream of sand was flowing unbroken. Our village grew bigger and the river became smaller! I remember her summer flow was blocked while I was in high school. When I went to college to study, the flow of the river was not steady throughout the winter and now it is such that our whole flow only in the rainy season. The whole of a few years ago and the present one is a great change. When the poorly that had flown for the first year now, there is an uncontrolled supply... Otherwise, the raw characters! The river should change its behaviour.

1. What natural resources is the above land related? (Marks-1)

2. What does the writer think has changed in the behavior of the river? (Marks-1)

3. At the end of the last, the author says, "The river must change its behavior." Do you agree with the author's statement? Who is required to change your attitude? And what should be changed?
