

Geography Bridge Course Post-Test

Marks: 25

Student name : _____
=====

Q 1. Complete the statements by choosing the correct option. 5

- 1. There are two layers in the crust _____
a) Outer and inner shield b) Continental and ocean shield
c) Surface and ocean shell d) Cover and core
- 2. As _____ is less in desert areas, the air is dry there.
a) Relative humidity b) Non-relative humidity c) Condensation d) Evaporation capacity
- 3. _____ factor out of the following does not affect the region along the coast.
a) Precipitation b) Temperature c) Land breezes d) Salinity
- 4. The following _____ factors do not directly affect industrial development.
a) Water b) Electricity c) Labor d) Air
- 5. The earth requires 24 hours for one rotation. In one hour, _____
a) 5 longitudes will face the sun b) 10 longitudes will face the sun
c) 15 longitudes will face the sun d) 20 longitudes will face the sun

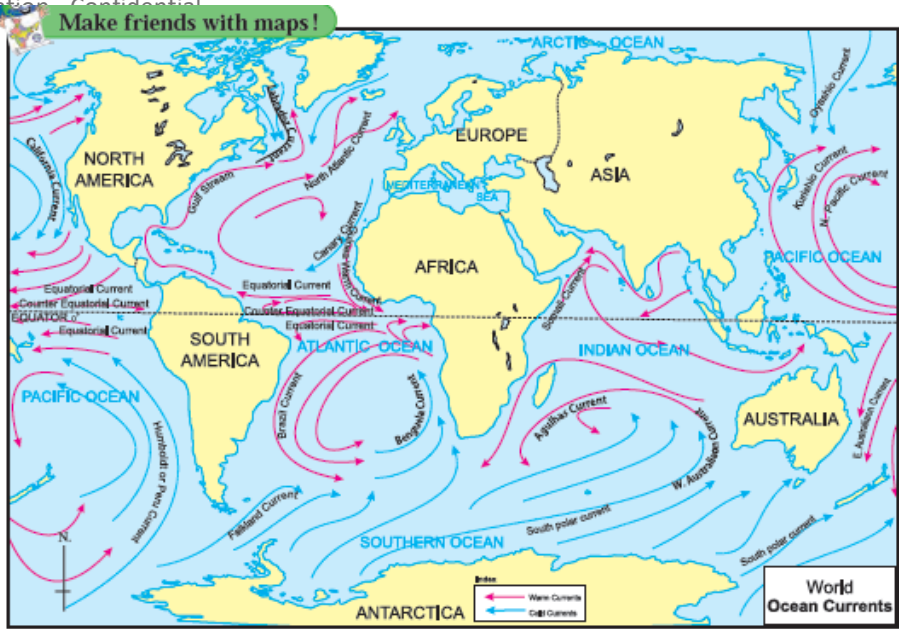

Q 2. Draw neat diagrams, label them. 4

- 1) The interior of the earth 2) Magnetic pole and equator

Q 3. Write geographical reasons. (Any 3) 6

- 1) There is variety in the interior of the earth.
- 2) Clouds float in the sky.
- 3) The study of ocean floor is useful to human beings.
- 4) Land use for public facilities are extremely important in urban areas
- 5) A region can be classified as developed or developing on the basis of land use.

Q 4. Observe the map and write the answers to the following questions. 5

- a) What do you call the currents flowing from the equator to the poles?
- b) What do you call the currents flowing from the poles to the equator?
- c) When the currents are moving in a circular manner, what difference is visible in their direction in Northern and Southern Hemisphere respectively?
- d) What might happen at the places where these currents meet?
- e) When two different types of currents meet along the coast then what type of human settlements and occupations are seen.

Q 5. Write the answers. (Any 1) 05

- (A) What is the reason behind the dynamics of the ocean water?
- (B) Why is agriculture important in rural land use?
